

Drivers

keeping your fleet in safe hands

Driver Recruitment

Employing drivers through Assist is easy; we provide you with access to the most reliable drivers through our specialist driver recruitment division, we manage and control the risks and we ensure that the drivers we supply are an asset to your business.

Our specialist division for driver recruitment is run by a team of driving professionals who understand the industry and the demands placed on our customers, they are expertly equipped to provide quality staff, minimise risk and exceed expectations.

Whether you are recruiting for full-time, part-time, temporary or permanent drivers you can expect the same unmatched levels of service from Assist.

Our expertly designed, bespoke systems help our staff deliver consistently high levels of service. Our recruitment systems and processes are tailored to manage and minimise the risks of employing drivers

within your organisation. They include a particularly stringent driving license and eligibility checking system and a skills and experience assessment.

Assist is a driver CPC training organisation and we actively work to qualify all of the drivers that we supply to customers. Valuing and investing in people in this way encourages drivers to take pride in their work and consistently perform well.

Day-to-day, robust, bespoke systems help our qualified team to record and manage driver working hours and each branch is fitted with tacograph reading and analysis software for monitoring and reporting. This gives our customers the confidence and reassurance that all drivers supplied by Assist are working in line with government employment laws and legislation.
